WORK EXPERIENCE

Typof Technologies Private Limited   **Bhubaneswar, Odisha**
  Software Developer Executive   Nov 2022- May 2024

- Collaborated cross-functionally to develop robust frontend solutions for web apps, showcasing strong teamwork and problem-solving in a fast-paced environment.
- Enhanced user experience by migrating the frontend from PHP to Next JS, significantly boosting website loading speed, leading to a smoother shopping experience.
- Played a key role in developing web apps, integrating of APIs, and conducting thorough testing, ensuring seamless frontend operations and improving overall client satisfaction

TECHNICAL SKILLS

- **Languages**: HTML, CSS, JavaScript (ES6+), Typescript
- **Frameworks/Library**: React.JS, Next.JS, Redux
- **Styling**: CSS3, Tailwind CSS, Bootstrap, Material UI, Styled-Component
- **Animation:** Framer Motion
- **State Management**: Redux, Context API
- **Version Control**: Git, GitHub
- **Testing**: Jest, Enzyme
- **APIs**: RESTful APIs, Fetch APIs, Axios

PROJECTS

Linktyp

   Technology used: React.JS, Tailwind CSS, Node JS (Backend API), Context API

- In the development of Linktyp, my primary work was on frontend development using the Next.js, with the CSS library Tailwind. With the team I created a user-friendly platform that allows users to register and share their social media links, products links and web links. This application helps a lot of ecommerce owners to drive more traffic to their store, increase their revenue as well as enhance their online presence.

Ecommerce Website Builder

   Technology used: Next.js, Redux (State management), Payment gateway (Stripe, Phonepe, Razorpay)

- As a frontend developer in Typof.com, I played a pivotal role in the development of a cutting-edge no-code eCommerce platform. Beyond the frontend, I spearheaded the integration of payment gateways such as Stripe, PhonePe, Razorpay in frontend to elevate a seamless checkout process.

Animated Portfolio Website

   Technology used: React.js, Tailwind CSS, Framer Motion

- Created an animated developer portfolio using Next.JS and framer motion. Showcasing technical skills and engaging user experience through beautiful animations using Framer motion.

Creativity Nexus

   Technology used: Next.JS, Tailwind CSS, Next.js API routes (for APIs), MongoDB, Firebase database (Image storage)

- Developed a comprehensive web application catering to artists, facilitating seamless registration and submission of various art forms including poetry, paintings, photography, and sculpture. The platform enables users to engage with content through comments. Basically, implemented a full CRUD functionality in this web app.

Summer-Camp (Tailwind CSS), Food App (HTML, CSS, Bootstrap)

- Designed some visually appealing landing page using HTML, CSS, Bootstrap, Tailwind CSS

EDUCATION

Sambalpur University   **Rourkela, Odisha**
Bachelor of science, Physics (Aug 2015 - Aug 2018)   69.6%
